## Why pocket coil mattress?

Each independent barrel shaped spring is wrapped in a non-woven fabric, and each coil functions independently to provide the optimum firmness that is most suitable for proper support & posture.

- Urethane Foam 15mm, Coil thickness:1.9mm, Height: 180mm, Height wrapped in casing: 140mm
- Features numerous areas of firmer support to hold your body weight
- Creates an even distribution of weight to ensure a stable posture
- Reduces the amount of sinking

## Rotate your mattress to extend its lifespan

We recommend rotating your mattress 180 degrees every season, as the strength of the springs may deteriorate if weight is continuously applied to the same areas. By swapping the mattress orientation and distributing your body weight evenly over time, you can reduce the load on the springs. Make sure to also periodically air the mattress by standing it up for a brief time.

A minimalist living room scene. In the center is a white sofa with three cushions: two light beige and one brown. In front of the sofa is a low, rectangular wooden coffee table with a white teacup and saucer and a green book on it. To the left of the sofa is a wooden side table with a woven basket containing green plants and a green bag. The room has light-colored wooden flooring and a large, light blue quilted rug. The background is a plain white wall with soft shadows from a window on the left. The text "Living Room Furniture" is overlaid in the center in a large, white, sans-serif font.

# Pine Shelf Units

Pine wood that ages gracefully with use. The wood deepens in color over time, resulting in a beautiful amber. The knots in the grain also lend to the rustic charm of the shelves. Select the right height and width of the shelf to suit your space.
