

Place it as you like,
vertically or
horizontally.

<NOTES regarding use>

- The maximum load per drawer is 1 kilogram, when placed either vertically or horizontally.
- Avoid placing heavy items directly on the top surface or on the shelf boards. Do not stack boxes: Such usage could result in a shelf board becoming detached.
- Avoid concentrating heavy items in one area. For example, if heavy items are put together in the upper drawer, the box will be unstable when placed vertically.
- When handling the dividers, be careful not to pinch your fingers.
- Do not place the product close to fire.
- Cleaning with a scouring brush or with strong cleanser may leave scratches on the product.
