

Product Features

- Made from PET bottle recycled material
- With stainless steel edge (one side)
- Special anti-slip processing
- Vertical scale display for readings when using the cutter vertically
- Can give measurements from a zero start on one end (one side)
- 5mm grid scale
- The grid is useful when making strokes and cuts with the cutter

Cautions

- Do not use the product for any purpose other than drawing lines, measuring or cutting work with the cutter.
- Please use with particular caution when cutting paper and other materials to avoid injury to the fingers or other parts of the body from the blade.
- Do not point the corners or sharp parts of the ruler towards a person. There is the danger this will cause injury.
- To prevent deformation do not put the ruler in a place with a high temperature or wipe with chemicals such as thinners.
- Do not bend or hit as this can cause damage or dislodge the stainless steel bar.
