Important Information (Safety Advice)

The warnings and cautions indicated here are intended to prevent harm to users and other individuals or damage to property. The instructions must be followed.

Actions that are prohibited.

Actions that must be taken.

NARNING Hazards that may lead to death or serious injury

DON'TS

O DON'Ts

Do not use near open flame. Doing so may cause the product to catch fire. Do not keep unnecessary packing materials within reach of children. Discard them immediately after unpacking.

⚠ CAUTION Hazards that may result in injury or damage to the property

- . Do not store wet items. Moisture may cause mould to grow on stored items or inside the product.

 Do not stand on the product or place heavy objects on top of it. Doing so may
- cause damage to the product, resulting in injury.

 Do not apply excessive load on one part of the top surface. Doing so may cause
- damage to the product.

 Do not overload the drawer as doing so may cause damage to the product.

• Be careful not to cut your hands on the edges of the cardboard during assembly.

Be sure to keep within the overall withstand load of the product.

Notes (Other Caution)

- Hold the product with both hands when moving it. Otherwise the product may become deformed.
- Use both hands when opening and closing the drawer.
- Wear gloves during assembly of the product. This is to prevent unexpected injury.

Parts

© Package Box × 1 (Reinforcement Board × 2)

Assembly Instructions

Cut two reinforcement boards out of © package box along the perforated lines. Then cut out two holes in the reinforcement board

Fold the flaps ① and ② inwards over the reinforcement boards that were slid into the case in step 3 . Then insert the tabs into the slits. Fold the flap ③ inwards twice and insert the tabs into the slits

Fold the tabs upwards and the short-side walls inward over the flaps. Then fit the tabs into the recesses on the corners.

Open up (A) case so it is no longer flat. Then fold the bottom flaps in the order of ① to ③ as shown in the image below.

Cut out the fasteners along the perforated lines. The fasteners are used for securely connecting

Fold the reinforcement boards and slide them into the case with the cutouts on the bottom.

- Attach (1) anti-slip pads on the 5 bottom to complete the assembly of the case.
 - Place the case with the three slits facing the bottom

Assembling ® drawer. Fold the long-side walls up and four flaps in the directions of the arrows.

Cut out the fasteners along the perforated lines.

* Can be stacked up to two cases high.

Horizontal

Fold the fasteners along the scored lines and insert them into the two slits as shown in the image below
