■ How to clean

The removable cushion cover can be dry-cleaned.

* Dry cleaning may shrink the cover slightly.

The washing tape is designed to prevent catching or scratching of the main unit fabric when removing the cover for cleaning or refitting the cover.

Feather cushioning is used inside the ottoman. Please note that this cushion cannot be removed.

Precautions for handling the feather cushion section

◆ The feathers have been cleaned to the highest standards, but feathers smell may still linger. Particularly, in humid weather, feathers may smell on rare occasions. Dry the main unit in a shady and airy place; then plump up the cushion to change the inner air with fresh air, and dry again for 3 to 4 hours in the sun.

◆ The filling of the feather cushion tends to lump in one corner. To maintain the cushion shape, regularly plump up the cushion and fluff up the feathers inside.
