Unified Instructions

Assembly, Instruction Manual

Retain for future reference

- Thank you for purchasing this product.
- Please read this Assembly and Instruction Manual prior to assembly.
- File this manual in a safe place for future reference.

Read before Assembly

Caution

- * The product you purchased may differ in specification to the product(s) explained here. Please verify before assembly.
- * Ensure you have sufficient space for assembling this product. Lay down a cloth or tarp to prevent damage to floors or furniture.
- * When installing Side Panels, be careful not to pinch fingers or hands.

*These assembly instructions are for the two-shelf type Side Panel. However, the steps are the same for both the two-shelf panel and the three-shelf panel.

- 1 Install the **A** Side Panel on the shelf frame after installing all shelves.

Installing First (or Only) Side Panel

- 1 Position the Side Panel inside and parallel to the shelf framework, and then slide down.
- 2 At the same time, slide both top and bottom slots of the Side Panel onto the cross bar of the shelf frame. Slide the Side Panel down until the top slot on the Side Panel **Point 1** stops on the cross bar **Point 2**.

If the space between the shelf and the shelf frame is too small to fit the Side Panel slot, loosen all shelf hook screws, and then install the Side Panel.

Caution Remember to loosen the shelf shelf hook screws when uninstalling Side Panels.

Installing Two or More Side Panels

- 1 Install the bottom-most Side Panel first, following the steps above.
- 2 Install the next panel above the bottom-most Side Panel and so on.

If the space between the shelf and the shelf frame is too small to fit the Side Panel slot, loosen all shelf hook screws, and then install the Side Panel.

* When using in conjunction with other parts, be sure to install the side panel last.

Parts Checklist

A	Side Panel		1
---	------------	---	---

Side Panels cannot be installed in locations where the panel covers parts as illustrated below.

Notes About Stainless Panels

The side without a hairline finish may show some variations due to the manufacturing process. Thank you for your understanding.

Read before Using this Product

- This product has removable shelving. Lifting this product by the shelves after assembly may cause shelves to come loose, resulting in falling objects, injury, and/or property damage.
- Always remove any stored items or glass shelving before moving this product after assembly. Moving this product requires at least two people. Move this product carefully, with each person holding the frame on the left and right sides firmly. Improper moving may cause shelves to come loose, resulting in falling objects, injury, and/or property damage.
- Do not drag or push across floors. Doing so may result in scratches or other damage to floor surfaces.
