 W37 x D28 x H37cm

Tolerable weight: Top board 5kg, 3kg per drawer, overall 5kg

Structure of Stacking Shelf

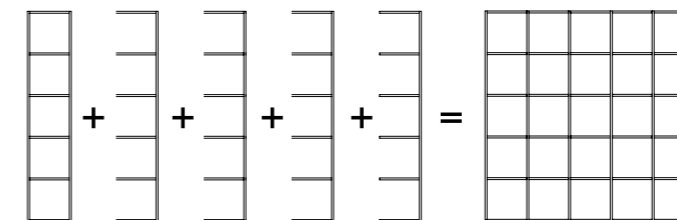

You can build your own storage unit just by combining the basic and additional units.

As shown in the drawing below, the units can be easily combined by joining the steel pipes inside the partition plate and then fastening them with bolts.

Stacking Method

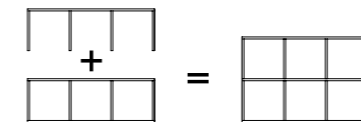

Examples of combinations and load capacity

This is the combination method to join the units placed upright in a sideways direction.

Load capacity: Total 150kg = 60kg x 5units / 2

For combined unit:
 Total load capacity: Load capacity of a unit x number of units / 2

One set of 35-tier basic unit + Four sets of 3-tier additional parts.

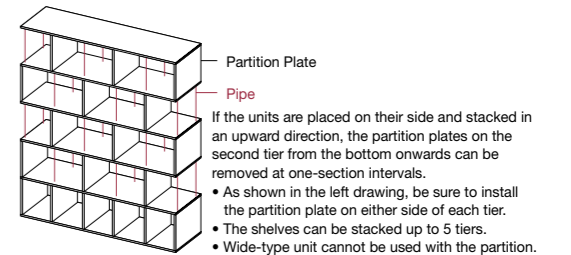

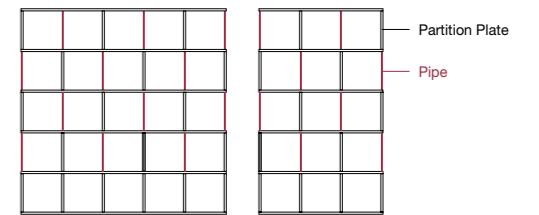

This is the combination method to join the units placed on their side in an upward direction.

Load capacity: Total 40kg = 40kg x 2units / 2

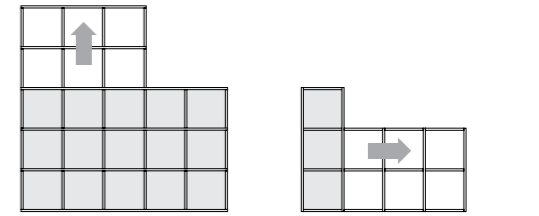

For combined unit:
 Total load capacity: Load capacity of a unit x number of units / 2

Example of Use

Using the unit with partition plates removed and only with steel pipes

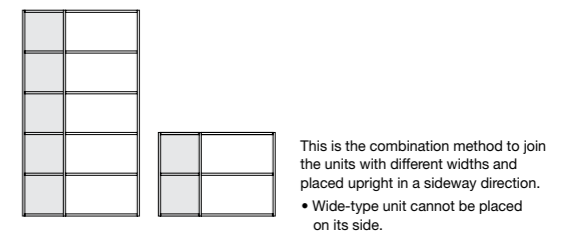

Combining units with different number of tiers

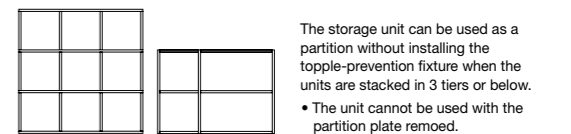

The shelves can be stacked up to 5 tiers.
 • Wide-type unit cannot be used with the partition.

Combining units with different widths

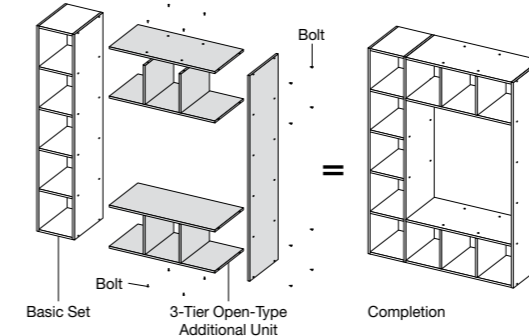

Using the unit as a partition

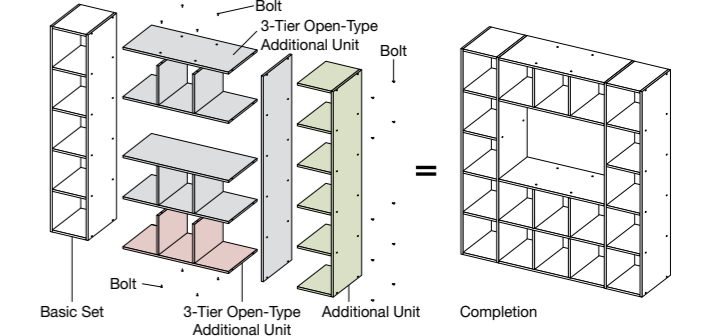

Structure of Open-Type Stacking Shelf

You can build your own storage unit just by combining the basic and open-type parts with steel pipes.

Combination Example 1

Combination Example 2

Stacking Cabinets

Build your own storage unit by combining the basic set and additional parts. By combining additional parts, you can make an ideal storage unit or audio visual rack for your living and bedroom.

Stackable Cabinet Set - 162.5cm

Construction of the stacking cabinet

Stack them up to get the style convenient for you and combine them with the optional parts to get a really handy cabinet.

- Tolerable load when used in combination
 Width: 162.5cm: 100kg in total
 Width: 82.5cm: 60kg in total
- Do not place a TV set whose size protrudes out of the top board.
- Drawers can be fixed up to the third tier.
- For safety reasons, please restrain the use of glass doors at the lowest tier as a precautions against breakages and falling out.

- The sets can be stacked up to 5 tiers. The legs can also be removed. However, a movable rack must be fixed at that location. In addition, the glass or wooden door cannot be used at that location. the back boards at locations using the high type cannot be removed. (Used it when using large AV amplifiers or appliances that generate high heat.)

Wooden Storage

A warm wooden storage that can be easily used in the living room, dining room, kitchen or even bedroom. This series has standardized depth for easy combination with other storage range. Choose and arrange at your will.

[15236640] Small S\$19.00
 W44 x D55 x H18cm
 Allowed number of stacks: 8 stacks
 Can be fitted with casters (sold separately)

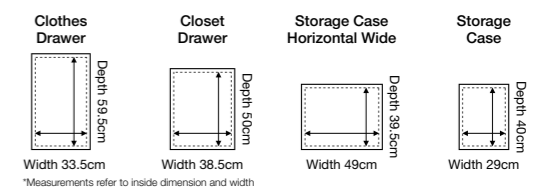

Tolerable weight: about 7kg (with casters: 3.5kg)

Semi-transparent boxes - making the best use of polypropylene's natural colour

MUJI made away with the colouring process - a common process to create colourful polypropylene products - to develop these colourless products. Removing the colouring process not only brings the cost down but the semi-transparent result helps in the identification of contents kept in the case while at the same time not showing too much or rather only vaguely showing the contents of the case.

There are 4 series lined up for the large type; these are the "storage case", "clothing case", "closet case" and "wide case". Choose the width, depth and height that suit the size of your cupboard. You can also use the drawer type for dust-proofing or fit in the wheelers to ease transfers of the contents.

* Please follow the pre-set "allowable number of stacks" and "tolerable weight" to avoid any untoward accidents.
 * Due to the nature of polypropylene, there might be a slight variation in the hardening of the propylene cases. When stacked up, the height of each stack might slightly vary.

PP Storage Case Horizontal Wide | (W55 x D44.5cm)

76331476 Deep **S\$36.00**
 W55 x D44.5 x H30cm
 Tolerable weight: About 2kg (with casters: about 2.5kg)

W39.5 x D56 x H62.5cm

S\$339.00

Designed with rounded corners for safety with the intention of minimizing the pain if you hit against it.

The back board of the top and middle drawers are made higher to prevent things kept in the drawers from falling.

The bottom drawer is designed to be able to be pulled out to the end of its back board.

Working Chair

18121298 Light Grey

S\$209.00

18121304 Black

S\$209.00

W55.5 x D73 x H74~84cm (Seat Height 39~49cm)

When the arm is attached

More Backward Arm Position

Arms were positioned more backward for easy elbow resting during relax time.

Lower Seat Height

Seat height is made lower for the users that are small in size and users who do not wear shoes in the room.

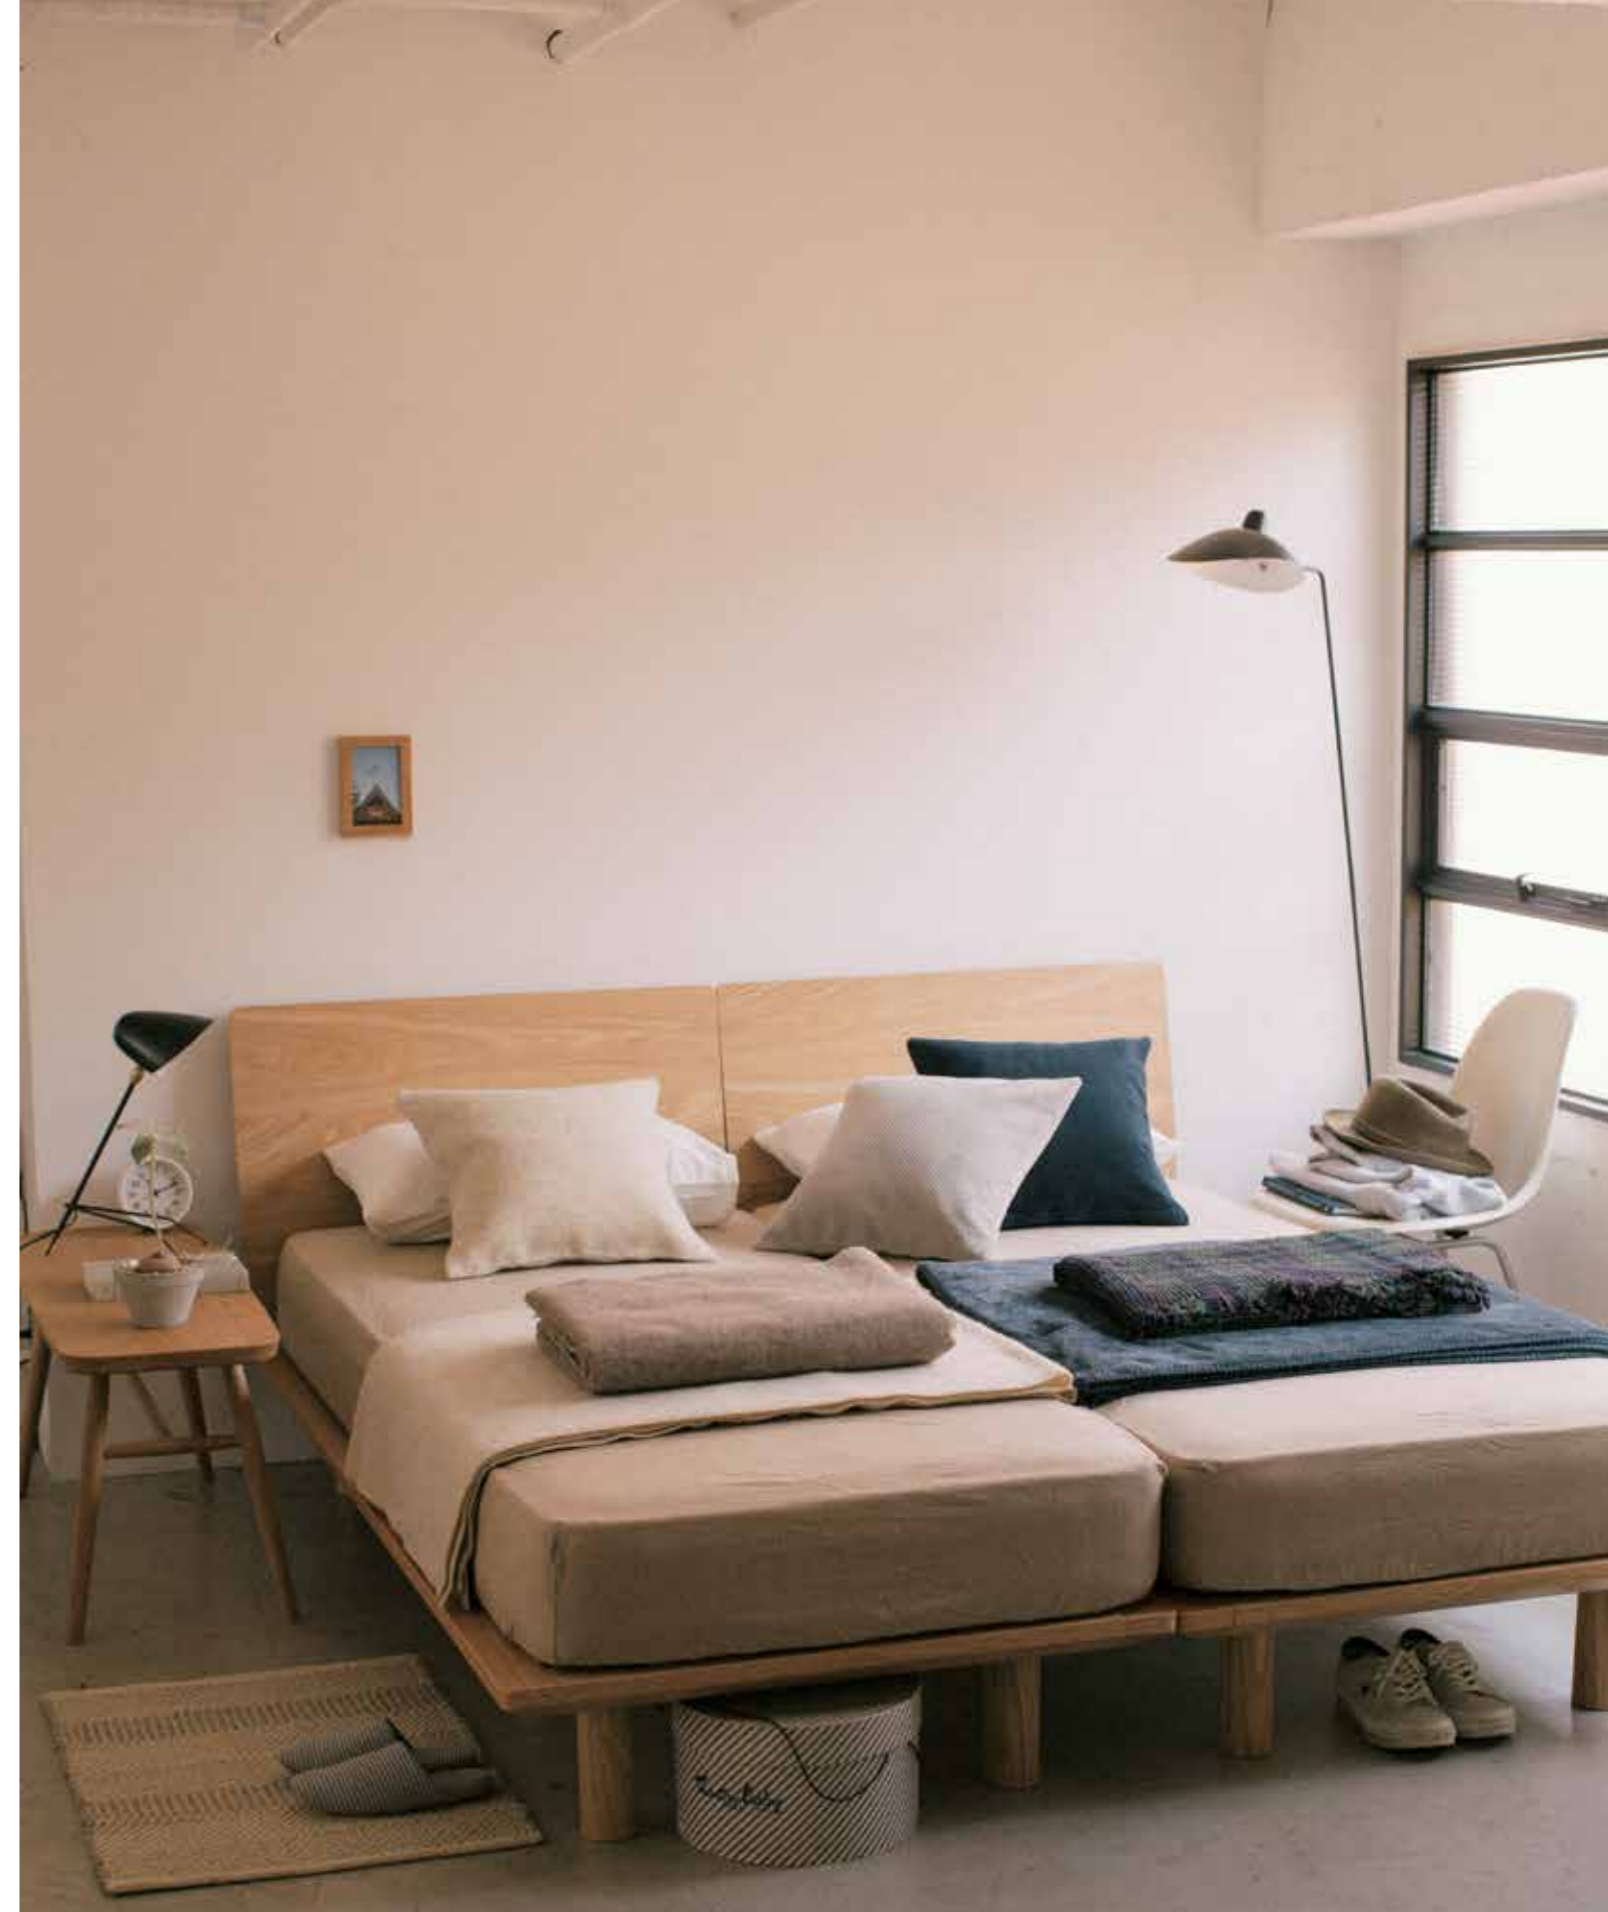

Sophisticated Rear View

Bolts on the back rest are made invisible for a more sophisticated appearance.

Round Finished Legs

Legs are finished with a roundish shape to avoid hurting the bare foot of the user.

Bedding

Wooden Bed Frame

A simple bed with a thin frame that makes the room look bigger. You can add a headboard or storage baskets under the bed according to your preference.

*Combination example: Mattress is sold separately.

*Combination example: Mattress is sold separately.

Choose your own bed base

There are many features we want to have for our bed simply because we spend a lot of time on it. Some of us want to have 2 single beds side-by-side or beds with spacious storage; beds with a more rounded design or beds with good ventilation. The list is endless.

This MUJI wooden bed is a bed designed in answer to these desires. The wooden springs of this bed come with belts to adjust the bedstead to the desired hardness or softness. The headboard and the wooden under-bed storage drawers have also been designed for effective space usage when 2 single beds are joined side-by-side.

MUJI's aim is to create a bed that is comfortable to sleep on and practical in daily living.

1. Headboard

The reclined headboard has been designed for a more relaxing posture when leaned against while doing some reading or writing before bedtime – the other way to enjoy this bed.

2. Wooden Springs

The wooden springs are given some sort of flexibility too. This doubles the effect of the mattress, minimizing the body weight distribution to the back and hip.

3. Base Legs

The base legs can be dismantled for those who prefer to have their bed frame lie flat on the floor instead.

4. Storage

The spacious wooden under-bed storage drawers can be a great tool to effectively use the space under the bed. These wooden storage drawers can be used to keep large fabrics such as blankets or compartmentalized to keep frequently used smaller items.

5. Mattress

Choose from the 3 types of mattresses available that suit your preferences.

Wooden Bed Storage Box - Large

4	37285620	Oak	S\$189.00
	37285637	Walnut	S\$229.00
		W80 x D90.5 x H19cm	

Wooden Bed Storage Box

5	37285644	Oak	S\$159.00
	37286139	Walnut	S\$189.00
		W80 x D60.5 x H19cm	

Pocket For Wooden Bed

6	61048970		S\$33.00
		W29 x H26.5cm	

Oak Bed

A basic bed made from durable and sturdy laminated solid wood that can be used for a long period of time.

*Combination example: Mattress is sold separately.

Oak Bed

[37285248] Single W100 x D202 x H74cm	S\$629.00
[37285279] Queen W60 x D202 x H74cm	S\$1199.00
[37285286] King W103 x D202 x H25.5cm	S\$1399.00

It is designed at an slant angle for our body to lean comfortably against it. The bed frame is also wider and thicker to increase stability.

It is broad enough to place alarm clock and other small things.

Storage Bed

A bed with an under-bed storage equivalent to the storage of 2 units of 4-tier wide chest drawers. Suitable to store everyday clothing or even larger items such as suitcases or futon mattresses.

Additional Box
With wooden spring base removed.
*There is no base board under the open space as shown.

[Storage Area] Double Bed

4 Tier Wide Chest with storage power of 2 combined units.

For a more effective storage in rooms, we have relooked into under-bed storage designs. Using storage box itself to support the mattress, more storage space is now available.

*Combination example: Mattress is sold separately.

Bonnell Coil Mattress

The mattress focuses on the inner layer such as spring coils. Bed pads are washable to maintain cleanliness. Available in various types.

Muji refocuses on the structure of the mattress that is defined for a greater comfort and body support as desired. The frame material is now changed from wood to steel in order to enhance breathability and durability. Now, removing the cover is simple; thus makes washing easy for a longer period of usage.

Simple Classic Bed

1. Cover

Changing the cover is simple. With periodic washing, the cover can be kept clean. The cover can be removed and machine-washed.

2. Spring Unit

MUJI mattress uses bonnell coils. It is covered in non-woven fabric so the unit can be changed easily when necessary.

3. Steel Frame

The strength of the mattress is reinforced by changing the frame from wood to steel.

4. Wooden Legs in Natural Wood

Choose from two different heights to suit your preference.

Height: 20cm / 26cm

Example of Use With Storage Box

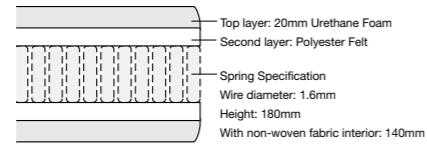

Mattress, Bed Pad

The use of urethane foam is minimized as much as possible so that a comfortable sleep induced from the use of spring coils can be maximized. Add on a washable bed pad to maintain cleanliness.

More spring coils, higher stability for a good sleep posture.

Increasing the number of coils disperses the body pressures. It also suppresses the load to the backbone and hip. As coils move in synchrony with the unevenness of the body, the coils can support the body in good balance and maintain a longer stable body posture.

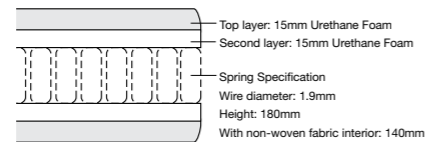

High Density Pocket Coil Mattress

[15783724] Single	S\$899.00
W97 x D195 x H19cm	
[15783748] Double	S\$1299.00
W140 x D195 x H19cm	
[15783755] Queen	S\$1599.00
W160 x D195 x H19cm	

Stand-alone coils provide point-support to the body.

The many stand-alone coils are closely positioned to one another to create a mechanism that absorbs the body weight on each of its point. This links to a balanced support to the entire body. It maintains a stable posture of the body and prevents the wobbling or indents on the mattress.

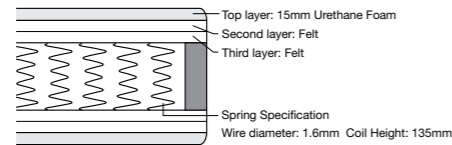

Pocket Coil Mattress

[18094844] Single	S\$499.00
W97 x D195 x H19cm	
[18094868] Double	S\$899.00
W140 x D195 x H19cm	
[61863351] Queen	S\$1099.00
W160 x D195 x H19cm	

The high resilience provides a steady support to the body.

Drum-shaped coils are joined together so that the entire mattress surface firmly supports the body pressure. This product uses Bonnel coil springs which are currently the most popular and reliable with proven performance and excellent resiliency.

Spring Mattress

[15901838] Single	S\$239.00
W97 x D195 x H18cm	
[15901852] Double	S\$399.00

Wool Polyester Quilted Futon

[37107854] Single S\$189.00
 W100 x L210cm
 Fabric: 100% Cotton
 Filling: 50% Wool, 50% Polyester
 Solid Cotton: 100% Polyester

Feather Pillow

[15828494] S\$19.00
 43 x 63cm
 [15808500] S\$23.00
 50 x 70cm
 Made with lightweight feathers, the pillow feels soft and does not sink easily providing comfort for a good sleep.

Urethane Foam Low Repulsion Pillow

[15001910] S\$33.00
 43 x 63cm
 This pillow is made from low and high repulsion urethane which provides extreme comfort on your neck and head.

Urethane Foam Low Repulsion Molded Pillow

[15828524] S\$79.00
 43 x 63cm
 Uses low repulsion urethane mould which exerts a small change in its hardness caused by the change of temperature. Features extreme comfort for your neck and head.

*Regularly let the mattress stand off the floor to ventilate it. Leaving the mattress over a long period on the floor may cause the formation of moulds.

Sofa

Living Dining Table & Chair

Embracing the unity of the two spaces catering to relaxation, dining or both. With the right furniture, a living and dining area can live beautifully within the same walls.

Wide Arm Sofa

Comfort at its own. Choose the cushion type, the colour of the legs and the combination of the cover that matches your home.

| Feather Pocket Coil Cushion |

The sofa is a coupled-effect of the soft feather cushioning and the assuring stability of the pocket coils.

Sofa Body - 2.5 Seater

[47276992]
W190 x D87.5 x H75cm

S\$899.00

The feather and pocket coil combination sofa sort of wraps one's body when sat on. The back rest has a soft feather cushiony feel while the sofa seat itself has a sturdy and soft coil-feather feel. A design made for relaxation.

Back rest: Urethane + Feather

Seat: Pocket Coil + Feather

| Urethane Foam Cushion |

A slightly sturdy sofa that eases the movement of getting up and seating. The cushion softens up to the body after frequent use.

Sofa Body - 2.5 Seater

[47276985]
W190 x D87.5 x H75cm

S\$699.00

A combination of a very sturdy seat and urethane cushion, this sofa uses a just-right urethane hardness to create the needed stability for seating. The sturdy urethane back rest and seat is not too soft which provides a great support to the body.

Back rest: Urethane

Seat: Urethane

7 37158214	Cotton Polyester Brown S\$79.00

High back design offering greater support up to the head

The high back design allows you to lie back and relax on the sofa. The cushions gently support your body right up to the neck position.

With reclining function

The reclining function of this chair is for both the backrest and the headrest, which allows you to adjust the sofa to your desired angle. The backrest is adjustable to six positions by the lever; and the headrest can be adjusted to six positions, even when the sofa is laid flat.

With reclining function

The cushions are made with soft and fluffy feathers to provide an exceptional sitting comfort. Urethane chips are mixed with feathers to enhance cushion resilience. The cover is detachable from the cushion body. If wrinkles are observed on the sofa surface, remove the cover and knead the cushion to puff it up.

Wood Tables and Chairs

Enjoy every meal and tea-time. The joy in our everyday life begins when we gather around the table.
